**Electric December: I Wish**  
**18 December**

Window 18 reveals what the next generation of innocent wishful thinkers hope for the future in **I Wish**, a film produced by UrbanaLaguna, where children are given a candid opportunity to talk about their wishes and aspirations for the future. Dramatic images of world events are mixed with children playing illustrating that disasters and terrifying actions can be changed by the next generation.

On day 18 wish for a better world where all children can enjoy the quality and peaceful existence that we too often take for granted.

**Electric December** is Watershed's widely acclaimed online digital advent calendar, which offers a new and totally unique digital present every day from 1 Dec - counting you down to Christmas.
